Entra Agent ID

On May 19, 2025, Microsoft announced that the Entra admin center can now manage custom agents.

The preview feature, Entra Agent ID, allows administrators to track agent identities, manage their lifecycle and permissions, and secure their access.

Agents are now recognized as objects within Entra and can be listed in the Enterprise applications section using a filter, similar to how service principals are managed.

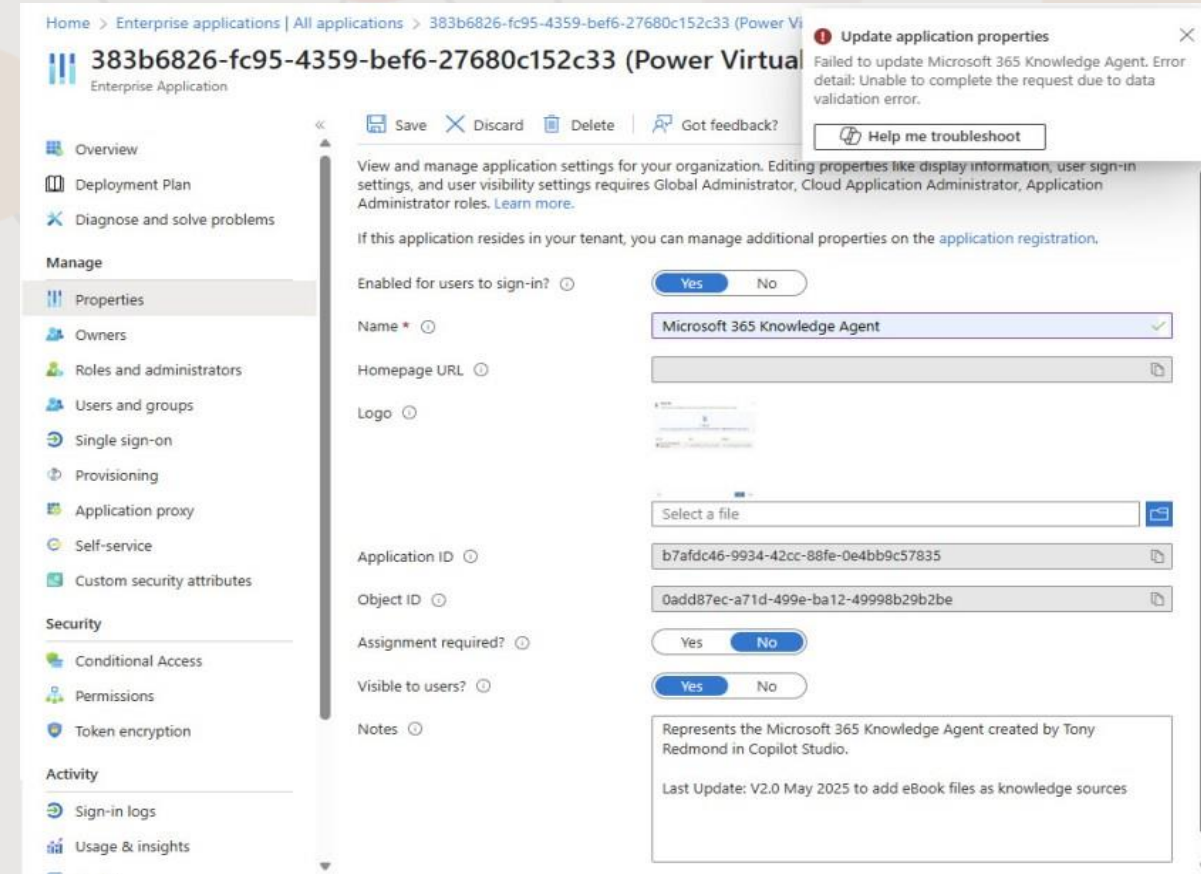

Entra Agent ID

The Entra admin center offers only basic management capabilities for agents.

While you can view agents and modify certain properties, you cannot change the display name—Copilot Studio still assigns unclear names, and attempts to edit them result in a data validation error.

However, updates to the Notes and Logo fields are allowed.

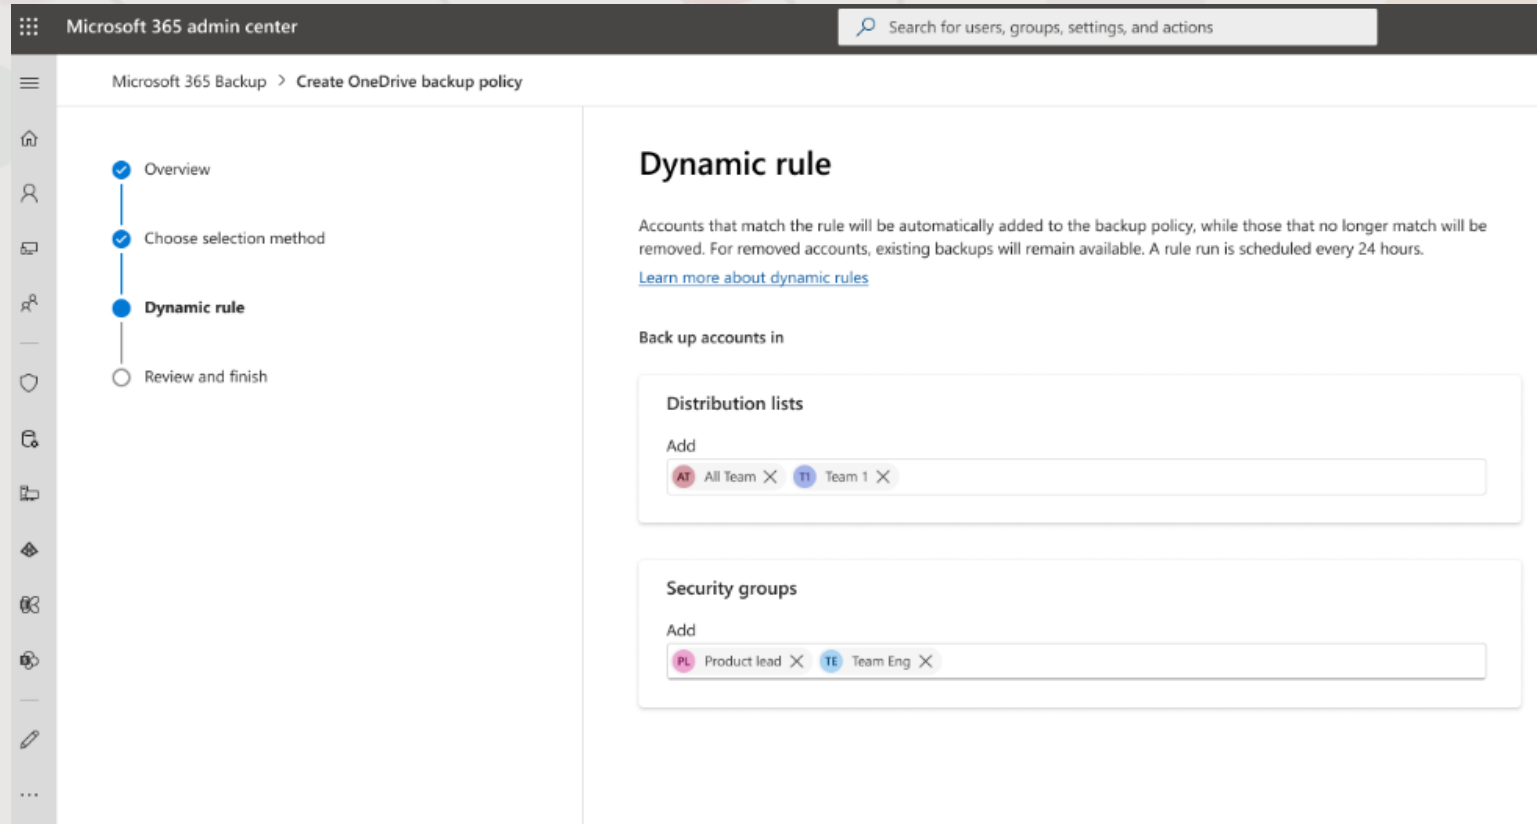

News from Microsoft 365

Enhancements in Microsoft 365 Backup

Dynamic Backup Policies:

Administrators can now implement dynamic policies that automatically adjust to changes in distribution lists or security group memberships.

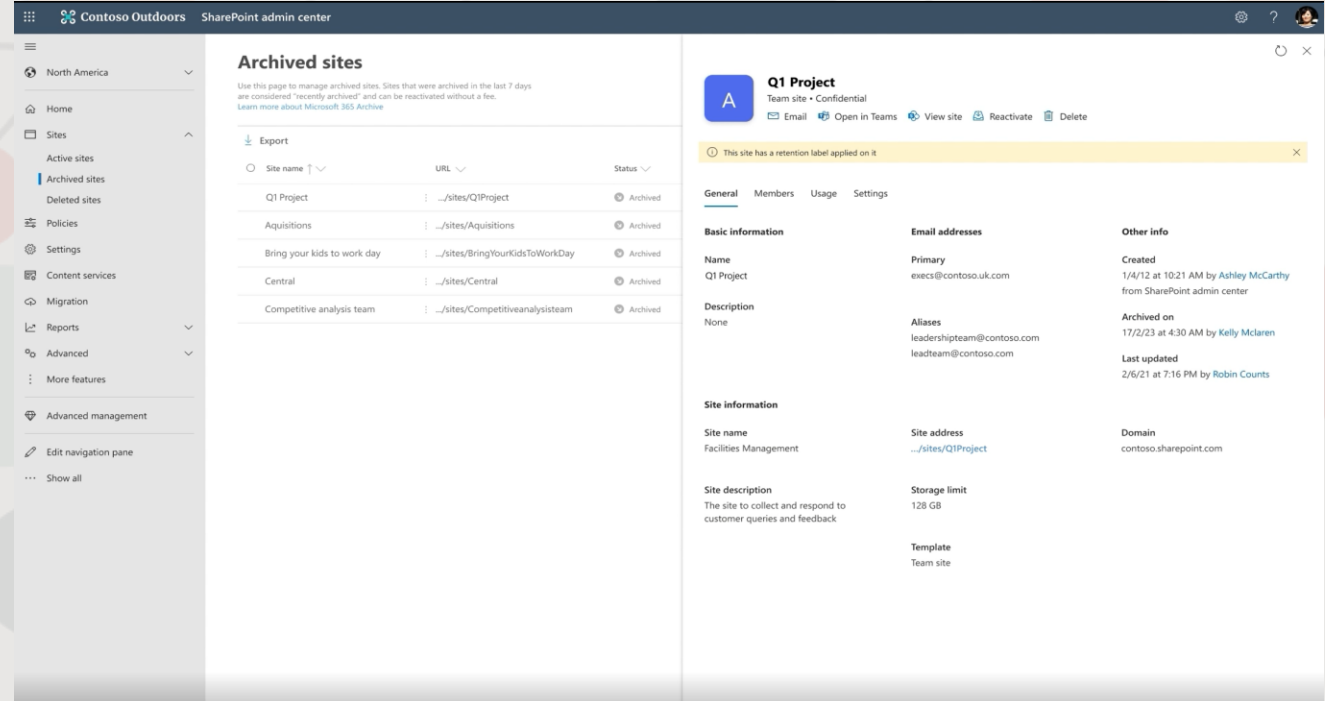

Granular Restore Capabilities:
Upcoming features will enable administrators to browse and restore individual files within OneDrive and SharePoint, facilitating more precise data recovery.

Microsoft 365 Archive Updates

Microsoft 365 Archive continues to offer cost-effective, long-term storage solutions by moving inactive SharePoint content to a cold storage tier.

Microsoft recently removed the reactivation fee for SharePoint content in Microsoft 365 Archive, giving organizations more flexibility to move data in and out of the archive tier without worrying about unexpected costs.

The screenshot displays the SharePoint admin center interface. On the left, a navigation pane shows the 'Archived sites' section selected. The main area is titled 'Archived sites' and includes a table of archived sites. A yellow banner at the top of the right pane indicates that a retention label is applied to the selected site.

Site name	URL	Status
Q1 Project	.../sites/Q1Project	Archived
Aquisitions	.../sites/Aquisitions	Archived

Priorità nella gestione delle chiamate AA e CQ

Call priorities for Call queues in Microsoft Teams allow you to set the order in which calls are routed to agents within a call queue.

This functionality is useful for ensuring that high-priority calls are answered first, while lower-priority calls are held in a queue until an agent becomes available.

Tasti rapidi evoluti nei telefoni Teams nativi

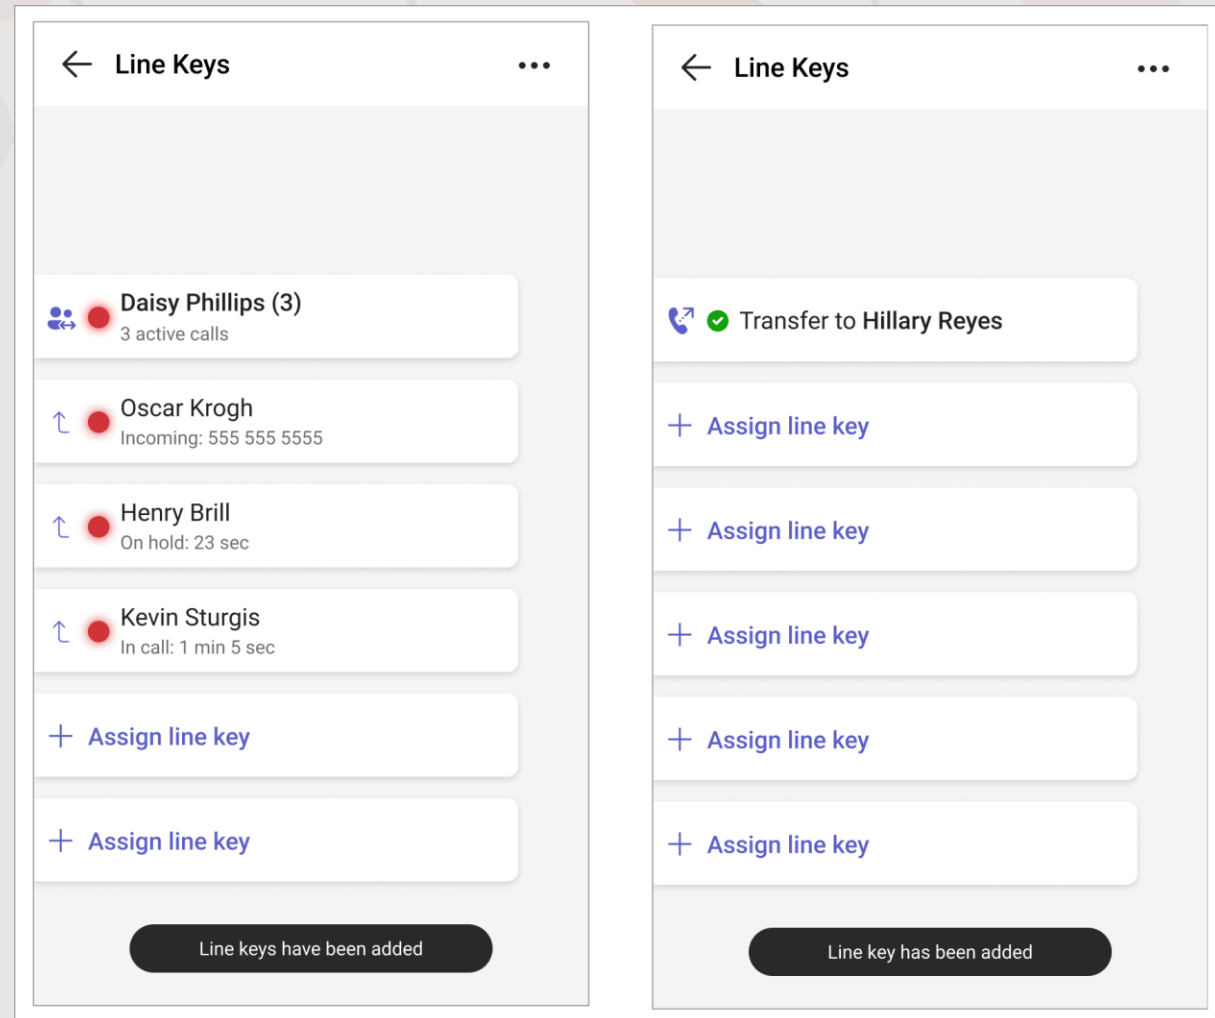

Nei telefoni Teams Nativi (base Android).

E' in distribuzione il nuovo aggiornamento che permetterà di fissare, nei tasti preferiti:

- I delegati
- Il trasferimento a qualcuno
- La shared line di qualcuno

Nuovo ruolo in EntraID: Teams Reader

Teams Reader

Assign the Teams Reader role to users who need to do the following tasks:

- Read settings and administrative information in the Teams admin center, but not perform any management actions
- Read the Microsoft Call Quality Dashboard (CQD), but not access any troubleshooting capabilities

The template ID is 1076ac91-f3d9-41a7-a339-dcdf5f480acc.

With Teams Reader, Entra ID now provides 121 pre-defined admin roles.

Role	↑↓	Description
☐ Teams Administrator		Can manage the Microsoft Teams service.
☐ Teams Communications Administrator		Can manage calling and meetings features within the Microsoft Teams service.
☐ Teams Communications Support Engineer		Can troubleshoot communications issues within Teams using advanced tools.
☐ Teams Communications Support Specialist		Can troubleshoot communications issues within Teams using basic tools.
☐ Teams Devices Administrator		Can perform management related tasks on Teams certified devices.
☐ Teams Reader		Read everything in the Teams admin center, but not update anything.
☐ Teams Telephony Administrator		Manage voice and telephony features and troubleshoot communication issues within the Microsoft Teams service.

Cambiano le regole del High Volume Email

- In GA quest'estate
- Nessun limite per spedizioni interne
- Nessuna spedizione verso l'esterno
- Pagamento a consumo su sottoscrizione Azure
 - prezzi ancora sconosciuti
- Metodi di autenticazione client:
 - ModernAuth
 - SMTPAuth (fino a sett 2028)
- Fino a 100 HVE (MailEnabled User)
- Per spedizioni massive esterne usare ACS-ECS
 - 5000 email da 100k = 1,31 \$

PS: Fine dell'SMTPAuth per mailbox utente a sett 2025

Limiti di spedizione esterne di tenant

- Da questo mese di maggio 2025
- Primo splendido caso scuola:

Tenant Outbound External Recipients

Use this report to track the number of external recipients that senders in your tenant sent messages to. If enforcement is enabled for your tenant, and your tenant exceeds it, may be blocked or throttled. Your tenant's ERRL is calculated based on the number of purchased seats. [Learn more](#)

Number of Non-trial Email Licenses	Tenant External Recipient Rate Limit
1	10,000
2	10,312
10	12,006
25	14,259
100	22,059
1,000	72,446
10,000	324,979
100,000	1,590,639
