The logo for BCCH (Bioscience Resource Project) is located in the bottom right corner. It features a stylized molecular structure with various colored spheres (red, orange, green, blue) connected by lines, and the text "BCCH" in a bold, sans-serif font.

Live Translated Captions in Meetings

The screenshot displays a Zoom meeting window titled "Meeting Title". The interface includes a top toolbar with icons for People, Chat, Reaction, More, Camera, Mic, Share, and a red "Leave" button. The main video area shows a grid of participants: Serena Davis (large view), Aadi Kapoor, and Charlotte de Crum. A language selection menu is open over Charlotte de Crum's video, listing "English (US)" (selected), Arabic, Czech, Danish, and Dutch. To the right, a sidebar shows thumbnails for Beth Davies, Kadji Bell, and Babak Shammass. At the bottom, a chat window shows a message from Babak S: "So what did you all think of today's kickoff meeting for the new building project? I was gonna mention it in the group chat."

Microsoft Teams Rooms on Windows Software Update - 4.13.132.0 (8/2/2022)

Introduced in this update:

- Join Teams meeting using meeting ID
- End-to-end encryption for one-to-one Teams calls¹
- Noise suppression in Teams meetings²
- Share tray experience update
- Mute and unmute status on your room video
- Admin setting for content only layout default
- **Modern authentication is on by default**

IMPORTANT

With this update, new Teams Rooms devices now default to using modern authentication when connecting to Microsoft Teams and Exchange Online. We strongly recommend that you test your Teams Rooms devices prior to end of August by turning on Modern authentication for their room accounts.

This change helps prepare for the upcoming update in Exchange Online to turn off basic authentication starting October 1, 2022. For more information, see [Basic Authentication Deprecation in Exchange Online – May 2022 Update](#).

Novità sulle licenze Microsoft Teams Room

NB: la funzione Dual Monitor richiede la licenza PRO

MICROSOFT TEAMS ROOM LICENSING

The Old Model (Premium)

The New Model (Pro)

MICROSOFT TEAMS ROOM LICENSING

Alcuni punti di attenzione:

- dal 1 Luglio 2023, le sale MTR che utilizzano licenze "utente" (Business o Enterprise) e che non saranno passate a licenze MTR Basic o PRO, smetteranno di funzionare
- la licenza MTR Basic permette di collegare 1 solo dispositivo
- per poter usare i Panel (fuori porta) verrà resa disponibile una licenza specifica nel caso la sala stia usando una licenza Basic. Se invece la sala usa una licenza PRO, si potrà collegare sullo stesso account anche il Panel senza costi aggiuntivi
